About This Book

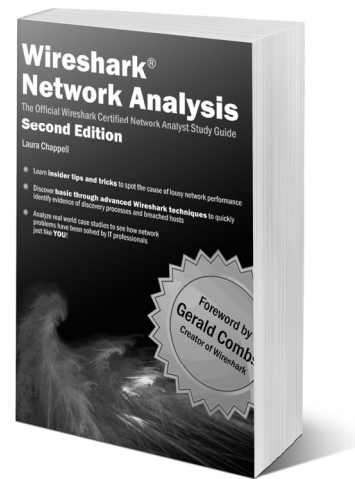

This book is intended to provide practice quiz questions based on the thirty-three areas of study defined for the Wireshark Certified Network Analyst Exam. This Official Exam Prep Guide offers a companion to **Wireshark Network Analysis: The Official Wireshark Certified Network Analyst Study Guide – Second Edition**.

ISBN10: 1-893939-94-4

ISBN13: 978-1-893939-94-3

Paperback: 986 pages

Website: www.wiresharkbook.com

Wireshark Certified Network Analyst™ Official Exam Prep Guide - Second Edition provides you with over 300 practice questions to prepare you for the *Wireshark Certified Network Analyst Exam*.

Print the Answer Sheets located at www.wiresharkbook.com/epg. There is one Answer Sheet for each of the three parts of this book.

The Answer Sheets enable you to take the tests in the book multiple times without marking up the book and seeing previous answer selections. Answer Sheets are formatted to match the Answer Keys for fast grading.

How Should You Use this Book?

This book is separated into three parts. The following provides a recommendation of how to use this book to effectively prepare for the Wireshark Certified Network Analyst Exam.

Key Area The  icon marks key topics to study in preparation for the Exam.

Step 1: Review the Study Guide

Each chapter in the Study Guide and each part of this Official Exam Prep Guide lists the objectives covered in the Wireshark Certified Network Analyst Exam, Second Edition. Ensure you have the knowledge and skills to master the objectives listed.

Step 2: Print Out the Answer Sheets

As an alternative to writing your answers directly in this book, you can download Answer Sheets from www.wiresharkbook.com/epg. This saves you from the headache of flipping pages from the questions to the Answer Key. The Answer Sheets are formatted to match the Answer Key for each part of the book enabling faster self-grading.

Step 3: Answer the Book Practice Questions in Three Parts

The book is divided into three separate sections of approximately 100 questions each. Part 1 covers Sections 1-11 of the Wireshark Certified Network Analyst Exam while Parts 2 and 3 cover Sections 12-22 and Sections 23-33, respectively.

We recommend that you answer Part 1 questions first and grade those answers before moving on to Part 2 and Part 3. Part 1 covers more of the basic concepts and skills of analysis and basic Wireshark functionality.

Step 4: Grade Your Answers

Each chapter ends with an Answer Key and Answer Explanation section. Use the Answer Key to quickly grade your answers. Refer to the Answer Explanation for details on the correct/incorrect answers posed by each question. The Answer Explanation defines the Study Guide chapters that cover the question topic.

What's Online at *www.wiresharkbook.com*?

There are numerous references and resources related to this book and Wireshark Network Analysis: The Official Wireshark Certified Network Analyst Study Guide, Second Edition, available at *www.wiresharkbook.com*. These resources include:

- Numerous trace files (.pcap/.pcapng files)
- Chanalyzer recordings (.wsx files)
- MaxMind® GeoIP® database files (.dat files)
- PhoneFactor™ SSL/TLS vulnerabilities documents and trace files
- Wireshark configurations
- Practice Exam Blank Answer Sheets

Which Version of the Exam Does This Book Match?

This book and the practice questions and quizzes herein, match the Wireshark Certified Network Analyst Exam version 102.x.

Wireshark Certified Network Analyst Exam Objectives

Each part in this book provides a list of exam objectives for the Wireshark Certified Network Analyst program. For additional information regarding exam preparation, visit *www.wiresharktraining.com/certification*.

Wireshark Certified Network Analyst™ Program Overview

The Wireshark Certified Network Analyst Exam is a globally-available, proctored exam to meet the secure and widely available delivery requirements desired by candidates.

Visit *www.wiresharktraining.com/certification* for additional information on the Wireshark Certified Network Analyst program. Questions regarding your Wireshark Certified Network Analyst status may be directed to *info@wiresharktraining.com*.

Why Should I Pursue the Wireshark Certified Network Analyst Certification?

Successful completion of the Wireshark Certified Network Analyst Exam indicates you have the knowledge required to capture network traffic, analyze the results and identify various anomalies related to performance or security issues.

How Do I Earn the Wireshark Certified Network Analyst Status?

To earn the Wireshark Certified Network Analyst status, you must pass a single exam—the WCNA-102x exam.

Register for the proctored Wireshark Certified Network Analyst Exam online at www.webassessor.com/pai. (PAI represents the Protocol Analysis Institute, the parent company of Wireshark University and Chappell University). For more information on the Exam registration process, visit www.wiresharktraining.com/certification.

Upon completion of the Wireshark Certified Network Analyst Exam, an individual will receive a pass/fail score. Candidates who successfully pass the Wireshark Certified Network Analyst Exam will receive their Wireshark Certified Network Analyst Confirmation package that contains the candidate's certificate and details on maintaining Wireshark Certified Network Analyst status. For more information on the Wireshark Certified Network Analyst program, visit www.wiresharktraining.com/certification.

Questions regarding your Wireshark Certified Network Analyst status may be directed to info@wiresharktraining.com.

Wireshark University and Wireshark University Training Partners

Wireshark University was launched in March 2007.

The goal of Wireshark University is to provide education on how to analyze, troubleshoot, secure and optimize network communications using Wireshark, the world's most popular network analyzer (www.wireshark.org).

Wireshark University is responsible for creating and maintaining the Wireshark Certified Network Analyst Exam, the Wireshark Certified Network Analyst Members Program, Wireshark University Certified Training Partner Program, Wireshark University Certified Instructor Program, and the Wireshark University Certified Training Materials.

Currently, Wireshark University courses are offered throughout the world in instructor-led, self-paced and online formats through Chappell University (www.chappellU.com) and various Wireshark University Certified Training Partners.

For more information on Wireshark University, visit www.wiresharktraining.com or send email to info@wiresharktraining.com.

Schedule Customized Onsite/Web-Based Training

If you are interested in training a team in a fast, effective, hands-on course environment, contact us directly. Customized courses can be developed and delivered by Laura Chappell. Customized courses can be based on your network traffic or previously captured traffic from numerous global networks. Course lengths can run from 2 days to 10 days and even include a web-based delivery option to meet the training needs of geographically dispersed students.

Contact us at info@chappellU.com or visit www.chappellU.com for more information on scheduling customized training for your organization.
